

The new M9 series of chairs have been developed and engineered for moderate to high usage. The series includes a high back task with headrest, a mid back task chair and side chair.

The M9 includes a synchro mechanism with a height adjustable lumbar back, seat height adjustment, arm height adjustment, a built-in seat slider, and easy-to-adjust back tension control.

Task chairs are standard with a Black injected molded base. Optional Tungsten or Polished aluminum bases are available at an upcharge. Side chair is standard in Black or Tungsten. A Chrome finish is available at an upcharge.

Cover photography features models EV8635, EV8636 and EV8637.
