panel connectors

Slotted posts are included with each Variable-Height Corner Post. The height of each slotted post must be specified when ordering a Variable-Height Corner Post. Slotted post height is determined by the height of the connecting panel run.

Example

Specify base code listed on pricing page.

Segmented Panel

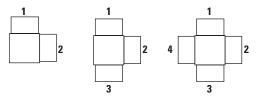

Specify slotted post heights.

Note: To specify height, use the first number of the connecting panel run height dimension.

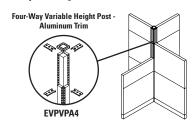

Slotted Post Positions

As illustrated in the example below, start with position 1 and continue clockwise specifying the height of each slotted post.

108-109

EVSC12 - SLOT COVER

- · Covers the slots of a slotted connector between modules as well as corner post
- · Available in all standard colors (Black, Charcoal Silver, Taupe, Tungsten, White and Nevada)
- Sold per foot. The desired quantity of the slot covers is the required length in feet.
- An easy way to calculate the required length is to sum the length of all inline connectors used in a project (including the posts) and multiply by 2.
- Should be field cut to required length.
