

Wire management scoops

Evolve now features an updated wire management scoop in the back of standard worksurfaces. This new scoop will replace the existing contoured style scoop. Combined with a standard 3/8" space behind the worksurface, this new scoop provides effective management of power cords, cables, monitor arms and surface mounted power modules anywhere along the back edge.

KEY FEATURES

- Molded plastic inserts available in three finishes: Black (BLK), Designer White (DWT) and Silver (SIL)
- Inserts are factory installed on new worksurfaces
- Inserts snap in from the top and can be field replaced, without removing the surface from the workstation
- Surfaces 24" - 54" wide will have one scoop, centered on the back edge of the worksurface
- Surfaces 60" wide or greater will have two scoops, centered 19.5" from each corner
- Surfaces requiring original style contours will be available through our Specials department

OPTIONS

Black (BLK)

Designer White (DWT)

Silver (SIL)
